HOW TO READ THIS LIST

GRADE — pharmacopoeial monograph (IP / BP / USP) where one applies, otherwise the food or cosmetic specification the material is held to.

CAS — registry number for the base substance. Blends and trade grades carry no single CAS and are shown as "—".

PACKING — standard trade packs. Other pack sizes, and bulk in tanker or IBC, are available against order.

MAKE — approved manufacturers we source from. Specific make is confirmed at the time of quote and named on the COA.
